

Mortise lock with latch securing 34110- FS.7

Latch lock, panic function E, DIN direction reversible

Overview of Advantages

- DIN direction reversible
- Trap safety device can be activated and deactivated
- New spring concept with strong compression springs for heavy handles
- Can be used with effeff 118 electric door opener
- Certification according to EN 179
- Certification according to EN 1125
- Certification according to EN 12209
- Certification according to EN 1634-1 to 3

Product description

- This panic mortise lock has a door handle, panic door fitting or push bar on the inside of the door. A knob is fitted on the outside of the door. If desired, this lock can also be equipped with an electronic door fitting. The door can be opened from the inside at any time using the door handle, panic door fitting or push bar (panic function). The square spindle (nut) is continuous with the panic function E. The door can be opened from the outside with the key using the changeover function. The latch security can be activated or deactivated with a screw. The activated latch security provides additional security and prevents the latch from being pushed in, e.g. with a card or tool. A deactivated latch security allows use with an effeff 118 electric door opener.

Area of Application

- Interior doors for school buildings, hotels, commercial buildings, administrative buildings, hospitals, airports
- Rooms with increased security requirements

Note

- To change the DIN direction, the faceplate screw between the latches must be removed; see instructions.
- The latch lock must be deactivated for use with an electric door opener 118

Technical data

DIN direction	left / right reversible
Panic function	PE
Follower	9, one-piece
Distance	78mm
Latch material	stainless steel with Delrin insert
material bolt	without deadbolt
material bolt	Stainless steel
Material face plate	Inox
Material faceplate	Brush-finished matt
Forend shape	rounded
Dimensions of latch bolt mating component	Latch blocking and latch securing
Type of cylinder	PZ
Backset	60
Faceplate dimensions	230x20x3

Article number	11206008
