

Migration from CLIQ Manager to CLIQ Web Manager: which information will not be migrated?

When transferring the data of the CLIQ Manager to the Web Manager, the following data are not transferred:

- Private address data of the persons
- Note fields for keys and cylinders (free text field)
- Persons to whom no key has been assigned
- Headings (misappropriated plan items)
- Plan items
- Self-created key data sets
- Self-created cylinder data sets
- Self-created organisational cylinder grouping
