## CLIQ Connect App configuration for purchase of CLIQ Web Manager.

You use CLIQ Web Manager (CWM) on your own server and would also like to set up CLIQ Connect (ccAPP) on mobile devices? Unfortunately, the setup is a bit more complex, therefore we would like to give you a brief explanation here.

1. First install the CLIQ Connect app on your mobile device.

   - [Android](#)
   - [iOS](#)
2. Then open the app
   - Bluetooth has to be activated
   - Location access must be permitted
3. Click on the three dots in the top right corner
4. Go to the settings
5. Add your system server
6. System-ID is
   - 3:YOUR_SYSTEM NUMBER
7. Server-URL is
   - https://YOUR_REMOTESERVER:443/CLIQRemote
   - Please ensure that the server can also be reached outside your network via the address and port, otherwise the mobile device cannot establish a connection.
