# eCLIQ cylinder padlocks series 319 – for high security requirements and extreme weather conditions

Electronic eCLIQ  
master key systems  
offer the right solution  
for every requirement.

eCLIQ cylinder  
padlocks for a wide  
range of application  
areas.

With a cylinder padlock, properties can be protected whether they are inside or outside a building. ASSA ABLOY offers the comfortable and secure solution: The cylinder padlocks of the IKON brand are flexible in use and are ideal for securing properties, even in remote places.

eCLIQ cylinder padlocks are ideal for securing equipment and construction trailers and containers, gates, basement rooms, cloakroom

cabinets, as well as oil tank protection and machine protection devices.

The new universal eCLIQ cylinder padlocks series 319 are characterised by their high level of break-in and theft protection with their solid construction combined with high-quality locking cylinders. Thanks to high weather resistance, this also applies to extreme weather conditions.

The ASSA ABLOY Group is the global leader in access solutions. Every day we help people feel safe, secure and experience a more open world.
