Cover profile FSA 8800 [S30]

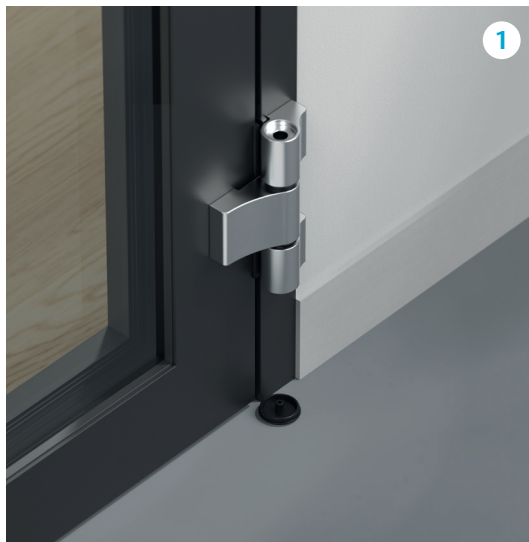

The hinge-side cover profiles for doors with Dr. Hahn door hinge 4 AT

The fast and smart solution

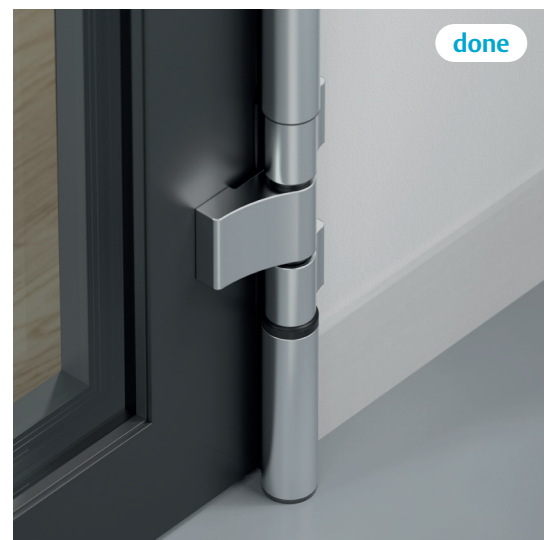

The innovative fastening technology is now also available for doors with Dr. Hahn hinge 4 AT. With just one clip-on cover profile doors with standard hinges can be secured efficiently in a just few minutes without complex screw connections. The protective profiles can be unhooked and re-hooked without tools to adjust the hinges or carry out other work on the door element.

Where existing systems use several screwed aluminium profiles, only one is used with the FSA 8800 [S30], which always sits perfectly in the axis of the hinges without complex alignment. The sleek look is impressive!

1. Mount adhesive base
2. Secure the hinge area with adhesive plastic profiles

3. Insert the adapter pin, fit the circlip

Overview of advantages:

- Simple installation in minutes thanks to screwless plug-in system
- Can be mounted and disassembled without special expertise
- Tool-free removal for service work on the door
- Guaranteed edgeless transitions without time-consuming alignment offer security, as well as a clean and integrated look
- Clever additional profile is also suitable for special solutions

The sets

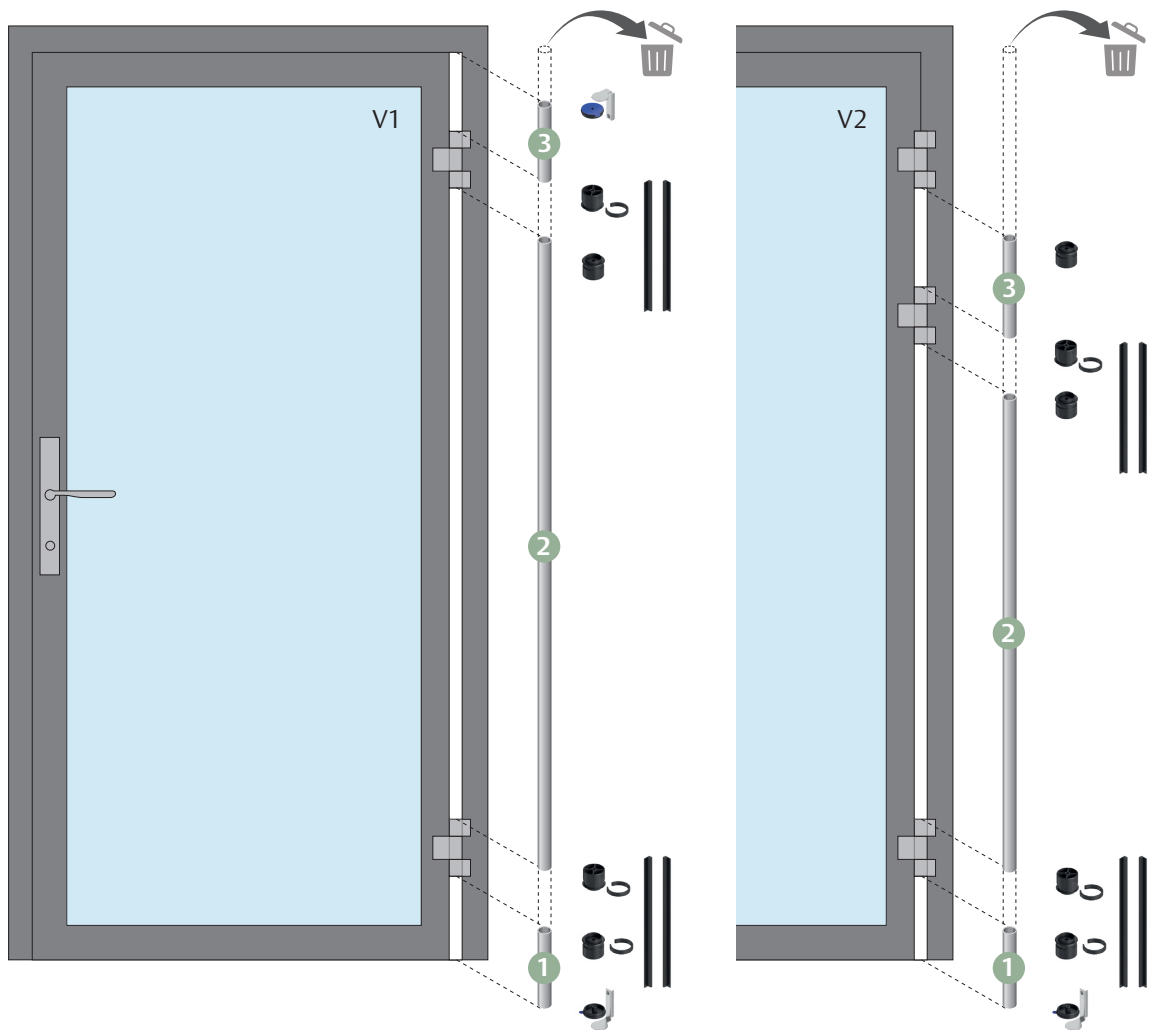

Lengths and colours: FSA 8800 (S30) complete sets are available in two versions: for securing **3 or 4 segments**. The 1980 mm long profiles can be cut to the segment length. All parts required for installation variants V1 and V2 are included in the sets.

The aluminium profiles are available in anodised or powder-coated finishes. Of course, all RAL and various anodised colours are available on request.

Set for 3 segments, 1980 mm (self-cut)

V1: Securing doors with 2 hinges from the floor to the upper edge of the door

V2: Securing of doors with 3 hinges from the floor to the top hinge.

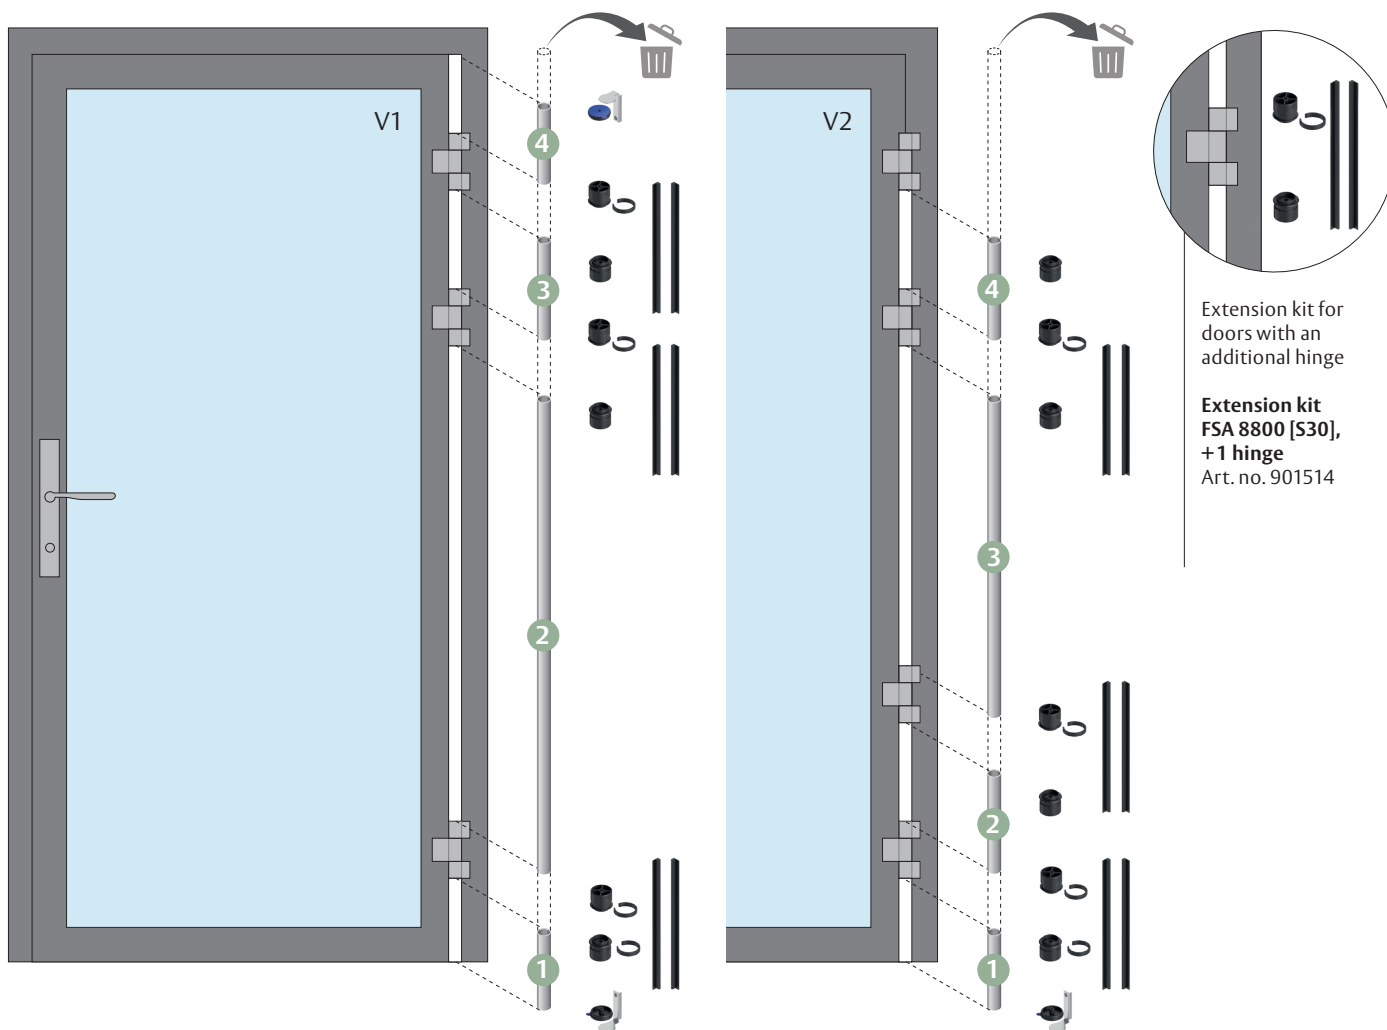

Note:

Bulk packaging, single parts and cut-to-size parts are shown on page 10/11.

Set for 4 segments, 1980 mm (self-cut)

V1: Securing doors with 3 hinges from the floor to the upper edge of the door

V2: Securing of doors with 4 hinges from the floor to the top hinge
