You can cover a topic and expand or test your knowledge in small units of 15-20 minutes. You can interrupt your learning module at any point and continue at a later time.

You will receive comprehension questions during the modules and you can test your knowledge level in a quiz at the end.

The learning content is available online 24 hours a day, 7 days a week.

Which modules are available?

Many modules from different areas:

The specialist topics are:

- Locks
- Electric strikes
- Escape route technology
- Locking cylinders/locking systems
- Electrical basics
- MEDIATOR®

We are constantly working on updating and adding new content. So it pays off to check out the Academy time and again.
